Differentiators:

Epoxy floor coatings allow for the color variety that comes with paint but the durability of a much stronger material. Epoxy floor coverings can take foot traffic, vehicular traffic and sustain wear and tear from many industrial tools and equipment.

Here are just a few of the benefits of epoxy coatings:

- Seamless and easy to clean. Mop and light detergent for easy maintenance.
- Hard, durable, and wear resistant even with vehicular traffic
- Attractive and customizable. Able to create any pattern or design with color and design.
Slip resistant. Epoxies can have anti slip additives to create a grip and non-slip surface
- Low VOC – Epoxy floor coatings can be low or No VOC's for environmentally friendly coatings.
- Fast curing and customizable curing times for cold or hot applications.
- Cost effective. Large areas can be coated for a reasonable cost and overall long-term solution.
